Revealing Failure as the Path to Success

Success Through Failure Podcast

Action Plan Episode #374

Jeremy Newsome

Jeremy Newsome's mission and calling in life is to enrich lives through mentally liberating financial education.

His love for business started at the age of six after watching the award-winning film, "[Forrest Gump](#)." At such a young age, he convinced his father to match his investment deposit for some Apple stock back in 1995— just like Forrest and Lieutenant Dan!

In 2014, he established Real Life Trading— a company designed to make trading accessible to everyone. This has allowed him to assist and enrich tens of thousands of lives while also growing the company organically to a seven-figure business.

But this is NOT an interview about stocks.

This episode is about taking risks. This is about your mindset toward success— but more importantly— this is about your mindset about life-changing failures and how to handle them.
